# **MSDS** MATERIAL SAFETY DATA SHEET

- Prepared For : Racine Railroad Products UK Limited Unit 3B Deepdale Close Hartington Industrial Estate Staveley, Chesterfield. S43 3YF
- Prepared By : Shenzhen LCS Compliance Testing Laboratory Ltd. Room 101, 201, Building A and Room 301, Building C, Juji Industrial Park, Yabianxueziwei, Shajing Street, Bao'an District, Shenzhen, Guangdong, China
  - Issue Date : 2023.07.10
- Report Number : KA2307070160A

Written by: <u>Mondy</u>

#### REPORT NO.: KA2307070160A

\* The MSDS is prepared based on the information provided by client. The contents and formats of this MSDS are revised as per client's request.

### **Section 1-Chemical Product and Company Identification**

			I J		
Product Name	High perfo	rmance power lithiun	n-ion battery		
Model	LLBS-06				
Trademark	N/A				
Ratings	36V,6Ah,216Wh				
Weight	1794.1g				
Manufacturer	Winkind Company Limited				
Manufacturer address	No. 31, Fuxin Road, Center Community, Pingdi Street, Longgang District, Shenzhen City, Guangdong Province				
Emergency Telephone	+86-755-8456-0900				
Fax	1				
Section 2- Composition Information					
Chemical Composition		CAS No.	Weight (%)	Trade Secret	
Lithium cobaltite	12190-79-3		15 - 40	*	
Graphite	7782-42-5		10 - 30	*	
Phosphate (1-), hexafluoro-, lithium	21324-40-3		10 - 30	*	
Copper	7440-50-8		7-13	*	
Aluminum	7429-90-5		5-10	*	
Nickel	7440-02-0		1-5	*	
" * " The exact p	percentage	(concentration) of co	omposition has been withheld	as a trade secret.	
Section 3- Hazards Identification					
Emergency overview:		N/A			
Classification according to GHS		Not a dangerous substance according to GHS			
Label elements:					
Hazard pictogram(s)		Not Applicable			
Signal word		Not Applicable			
Hazard statement(s)		Not Applicable			

Scan code to check authenticity

Precautionary statement(s):				
Prevention	Not Applicable			
Response	Not Applicable			
Disposal	Not Applicable			
Environmental hazards:	No relevant information			
Important symptoms:	See section 11 for more information			
Section 4- First Aid Measures				
Eye contact	Flush eyes with plenty of water for least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.			
Skin contact	Remove contaminated clothes and rinse skin with plenty of water or showe for 15 minutes. Get medical aid.			
Inhalation	Remove from exposure and move to fresh air immediately. Use oxygen if available.			
Ingestion	Give at least 2 glasses of milk or water. Induce vomiting unless patient is unconscious. Call a physician.			
Section 5- Fire Fighting Measures				
Flash Point	N/A			
Auto-ignition Temperature	N/A			
Extinguishing Media	H <sub>2</sub> O, CO <sub>2</sub>			
Special Fire-Fighting Procedures	Self-contained breathing apparatus			
Unusual Fire and Explosion Hazards	Cell may vent when subjected to excessive heat-exposing battery contents			
Hazardous Combustion Products	Carbon monoxide, carbon dioxide, lithium oxide fumes.			

### Section 6- Accidental Release Measures

#### Personal precautions, protective equipment, and emergency procedures:

If the battery is released, remove personnel from area until fumes dissipate. Provide maximum ventilation to clear out hazardous gases. The preferred response is to leave the area and allow the vapors to dissipate. Avoid skin and eyes contact or inhalation of vapors. Remove spilled liquid with absorbent and incinerated. If leakage of the battery happens, liquid could be absorbed with sand, earth or other inert substance and contaminated area should be ventilated meantime.

#### Environment precautions:

Do not allow product to reach sewage system or any water source. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water.

#### REPORT NO.: KA2307070160A

#### Methods and material for containment and cleaning up:

If battery casing is dismantled, small amounts of electrolyte may leak. Collect all released material in a plastic lined container. Dispose of according to the local law and rules. Avoid leached substances to get into the earth, canalization, or waters.

See	ction 7- Handling and Storage		
Handling	The battery should not be opened, destroyed, or incinerate, since they may eak or rupture and release to the environment the ingredients that they contain in the hermetically sealed container. Do not short circuit terminals, or over charge the battery, forced over-discharge, throw to fire. Do not crush or puncture the battery or immerse in liquids.		
Storage	<ul> <li>Avoid mechanical or electrical abuse. Storage preferably in cool, dry, and ventilated area, which is subject to little temperature change. Storage at high temperatures should be avoided.</li> <li>Do not place the battery near heating equipment, nor expose to direct. sunlight for long periods.</li> </ul>		
Other Precautions	The battery may explode or cause burns, if disassembled, crushed, or exposed to fire or high temperatures. Do not short or install with incorrect polarity.		
Section 8- Exposure Controls/Personal Protection			
Engineering Controls	Use local exhaust ventilation or other engineering controls to control sources of dust, mist, fumes, and vapor. Keep away from heat and open flame. Store in a cool, dry place.		
Personal Protective Equipment Respiratory Protection: Not necessary under normal conditions. Skin and body Protection: Not necessary under normal condition suitable protective clothing and gloves if handling an open or leak Hand protection: Wear suitable gloves if handling an open or leak Eye Protection: Not necessary under normal conditions, Wear sa if handling an open or leaking battery.			
Other Protective Equipment	Have a safety shower and eye wash fountain readily available in the immediate work area.		
Hygiene Measures	Do not eat, drink, or smoke in work area. Maintain good housekeeping.		
Section 9- Physical and Chemical Properties			
Form	Solid		
Color	Orange and black		
Odour	Not Applicable		
рН	Not Applicable		

REPORT NO.: KA2307070160A

		REPORT NO.: KA2307070160A			
Flash Point       Not Applicable         Upper/lower flammability or explosive limits       Not Applicable         Vapor Pressure       Not Applicable         Vapor Density       Not Applicable         Relative density       Not Applicable         Solubility in Water       Not Applicable         Auto-ignition temperature       Not Applicable         Decomposition temperature       Not Applicable         Evaporation rate       Not Applicable         Flammability (soli, gas)       Not Applicable         Viscosity       Not Applicable         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable	Melting point/freezing point				
Upper/lower flammability or explosive limits         Not Applicable           Vapor Pressure         Not Applicable           Vapor Density         Not Applicable           Relative density         Not Applicable           Solubility in Water         Not Applicable           Auto-Ignition temperature         Not Applicable           Decomposition temperature         Not Applicable           Evaporation rate         Not Applicable           Flammability (soil, gas)         Not Applicable           Viscosity         Not Applicable           Viscosity         Not Applicable           Stability         The product is stable under conditions described Section 7           Conditions to Avoid         Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.           Incompatible Materials         Oxidizing agents, acid, base.           Hazardous Decomposition Products         Carbon monoxide, carbon dioxide, lithium oxide furmes.           Possibility of Hazardous Reaction         Not Applicable           Irritation         Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.           Sensitization         Not Applicable	Boiling Point and Boiling range	Not Applicable			
explosive limits         Not Applicable           Vapor Pressure         Not Applicable           Vapor Density         Not Applicable           Relative density         Not Applicable           Solubility in Water         Not Applicable           Auto-ignition temperature         Not Applicable           Decomposition temperature         Not Applicable           Evaporation rate         Not Applicable           Flammability (soil, gas)         Not Applicable           Viscosity         Not Applicable           Viscosity         Not Applicable           Stability         The product is stable under conditions described Section 7           Conditions to Avoid         Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.           Incompatible Materials         Oxidizing agents, acid, base.           Hazardous Decomposition         Carbon monoxide, carbon dioxide, lithium oxide fumes.           Possibility of Hazardous         Not Applicable           Irritation         Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compronising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.           Sensitization         Not Applicable	Flash Point	Not Applicable			
Vapor Density         Not Applicable           Relative density         Not Applicable           Solubility in Water         Not Applicable           Auto-ignition temperature         Not Applicable           Decomposition temperature         Not Applicable           Evaporation rate         Not Applicable           Flammability (soil, gas)         Not Applicable           Viscosity         Not Applicable           Stability         The product is stable under conditions described Section 7           Conditions to Avoid         Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.           Incompatible Materials         Oxidizing agents, acid, base.           Hazardous Decomposition Products         Carbon monoxide, carbon dioxide, lithium oxide fumes.           Possibility of Hazardous Reaction         Not Applicable           Irritation         Risk of irritation occurs only if the cell is mechanically, thermally, celectrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.           Sensitization         Not Applicable		Not Applicable			
Relative density       Not Applicable         Solubility in Water       Not Applicable         Auto-ignition temperature       Not Applicable         Decomposition temperature       Not Applicable         Evaporation rate       Not Applicable         Flammability (soil, gas)       Not Applicable         Viscosity       Not Applicable         Viscosity       Not Applicable         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable	Vapor Pressure	Not Applicable			
Solubility in Water         Not Applicable           Auto-ignition temperature         Not Applicable           Decomposition temperature         Not Applicable           Evaporation rate         Not Applicable           Flammability (soil, gas)         Not Applicable           Viscosity         Not Applicable           Stability         Not Applicable           Stability         Not Applicable           Stability         The product is stable under conditions described Section 7           Conditions to Avoid         Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.           Incompatible Materials         Oxidizing agents, acid, base.           Hazardous Decomposition Products         Carbon monoxide, carbon dioxide, lithium oxide fumes.           Possibility of Hazardous Reaction         Not Applicable           Irritation         Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.           Sensitization         Not Applicable           Neurological Effects         Not Applicable	Vapor Density	Not Applicable			
Auto-ignition temperature       Not Applicable         Decomposition temperature       Not Applicable         Evaporation rate       Not Applicable         Flammability (soil, gas)       Not Applicable         Viscosity       Not Applicable         Section 10- Stability and reactivity         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction 11 - Toxicological Information       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Relative density	Not Applicable			
Decomposition temperature       Not Applicable         Evaporation rate       Not Applicable         Flammability (soil, gas)       Not Applicable         Viscosity       Not Applicable         Viscosity       Not Applicable         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Prostibility of Hazardous       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Solubility in Water	Not Applicable			
Evaporation rate       Not Applicable         Flammability (soil, gas)       Not Applicable         Viscosity       Not Applicable         Stability       Section 10- Stability and reactivity         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Auto-ignition temperature	Not Applicable			
Flammability (soil, gas)       Not Applicable         Viscosity       Not Applicable         Section 10- Stability and reactivity         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide furmes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, celectrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Decomposition temperature	Not Applicable			
Viscosity       Not Applicable         Section 10- Stability and reactivity         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, celectrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Evaporation rate	Not Applicable			
Section 10- Stability and reactivity         Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Flammability (soil, gas)	Not Applicable			
Stability       The product is stable under conditions described Section 7         Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Viscosity	Not Applicable			
Conditions to Avoid       Heat above 70°C or incinerate. Deform, Mutilate, Crush, Disassemble, Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, celectrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Section 10- Stability and reactivity				
Conditions to Avoid       Overcharge, Short circuit, Expose over a long period to humid conditions.         Incompatible Materials       Oxidizing agents, acid, base.         Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable	Stability	The product is stable under conditions described Section 7			
Hazardous Decomposition Products       Carbon monoxide, carbon dioxide, lithium oxide fumes.         Possibility of Hazardous Reaction       Not Applicable         Section       11 – Toxicological Information         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Conditions to Avoid				
Products       Carbon monoxide, carbon dioxide, infitum oxide rumes.         Possibility of Hazardous Reaction       Not Applicable         Section 11 – Toxicological Information         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable	Incompatible Materials	Oxidizing agents, acid, base.			
Reaction       Not Applicable         Section 11 – Toxicological Information         Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable		Carbon monoxide, carbon dioxide, lithium oxide fumes.			
Irritation       Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable		Not Applicable			
Irritation       electrically abused to the point of compromising the enclosure. If this occurs irritation to the skin, eyes and respiratory tract may occur.         Sensitization       Not Applicable         Neurological Effects       Not Applicable					
Neurological Effects         Not Applicable	Irritation	Risk of irritation occurs only if the cell is mechanically, thermally, or electrically abused to the point of compromising the enclosure. If this occurs, irritation to the skin, eyes and respiratory tract may occur.			
	Sensitization	Not Applicable			
Teratogenicity Not Applicable	Neurological Effects	Not Applicable			
	Teratogenicity	Not Applicable			
Reproductive Toxicity         Not Applicable	Reproductive Toxicity	Not Applicable			

REPORT NO.: KA2307070160A

Mutagenicity (Genetic Effects)	Not Applicable				
Toxicologically Synergistic Materials	Not Applicable				
Section 12- Ecological Information					
Ecological Toxicity	Not Applicable				
Mobility in soil	Not Applicable				
Persistence and Degradability	Not Applicable				
Bioaccumulation potential	Not Applicable				
Other Adverse Effects	Not Applicable				
Section 13- Disposal Considerations					
Product disposal recommendation	Observe local, state, and federal laws and regulations.				
Uncleaned packaging recommendation	Disposal must be made according to official regulations				
Section 14 – Transport Information					
Label for conveyance	Lithium Battery Label				
UN Number	UN 3480 or UN 3481				
Transport hazard class(es)	9				
Packing group	965 or 966	II			
	967				
Marine pollutant	No				
UN Proper shipping name	Lithium-ion Batteries (Including lithium-ion polymer batteries) Lithium-ion Batteries packed with equipment (Including lithium-ion polymer batteries) Lithium-ion Batteries contained in equipment (Including lithium-ion poly batteries)				
ICAO/IATA	Can be shipped by air in accordance with international Civil Aviation Organization (ICAO), TI or International Air Transport Association (IATA) DGR 64 <sup>th</sup> Packing Instructions Section IA of 965 or Section I of 966 967 appropriately.				
IMDG CODE	International Maritime Dangerous Goods Code IMDG CODE (Amdt 41-22)				
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road				
RID	Regulations concerning the International Carriage of Dangerous Goods by Rail				

#### REPORT NO.: KA2307070160A

The dangerous goods regulations require that each battery design be subject to tests contained in Section 38.3 of the UN Manual of Tests and Criteria prior to being offered for transport.

### **Section 15- Regulatory information**
