

Battery On-Track Impact Wrench

INNOVATIVE DESIGN FROM RACINE RAILROAD PRODUCTS UK LTD

Powerful and Efficient

The 1" On-Track Impact Wrench is a portable, battery powered, quality product with unique features that make this the perfect solution for your rail requirements.

Ease of Use

Ergonomically designed to alleviate the need for constant bending.

Designed to maximise efficiency as once deployed can be pushed along the rail to the next chair.

Working Environment

Needs no mains power or fuel – providing safer working environments.

ZERO Emissions

Low HAV – safeguarding the operator.

Low Noise – night work in residential areas is easier.
