

Battery Dual Speed Rail Drill

INNOVATIVE DESIGN FROM RACINE RAILROAD PRODUCTS UK LTD

Powerful and Efficient

The Battery Powered Rail Drill is a portable, battery powered, quality product with unique features that make this the perfect solution for your rail drilling requirements.

Ease of Use

The easy-to-use and rugged design makes the Rail Drill a cost-effective solution to drilling clean, accurately positioned holes in rail sections on standard rail.

Working Environment

Needs no mains power or fuel – providing safer working environments.

ZERO Emissions

Low HAV – safeguarding the operator.

Low Noise – night work in residential areas is easier.

Model 476596	
Rated Capacity of the battery pack	12Ah
Weight	≤15.9Kg
Diameter of Holes	Φ9.8-Φ32 mm
Dimensions	515mm x 148mm x 390mm
Sound Pressure Level	87.2 dB(A)
Vibration Level	0.3 m/s ²
